

晋能国际
JIN NENG INTERNATIONAL

41st Annual Conference Technical Tours

Sunday, June 14, 2015

NUMBER OF PARTICIPANTS LIMITED TO 30

Jinneng Alloy Operations – Fengyu Ferroalloy Co. Ltd.

Shanxi Jinneng Group Co., Ltd. is a large conglomerate based on a modern corporate system. Its major business covers many industries including the production of ferroalloy and electrolytic aluminium, trade in alloy and minerals, grid-related products and services, coal and power generation, real estate development and property services. Jinneng Group is the biggest producer of Mn alloys in Northern China, with its annual capacity of Mn alloys reaching half a million tons.

As a wholly-owned subsidiary of Shanxi Jinneng Group Co., Ltd., Shanghai Jinneng International Trade Co., Ltd. (herein referred to as Jinneng International) focuses on the import and export of coal, manganese ore, chrome ore, nickel ore, ferroalloys, coke, metal silicon, graphite electrode, needle coke, electrolytic aluminium and package unit. It partly owns a subsidiary named Shanghai Jinneng Resources Co., Ltd., which is a professional mineral importer. With the scale advantage, brand strength and marketing platforms of Jinneng Group, Jinneng International vigorously implements the strategy of product diversification, trade internationalization and integration of production and marketing. It has built long-term partnerships with internationally-known mining companies such as BHP Billiton, VALE, Eramet Comilog, Consolidated Minerals and OM Holdings. Its significant manganese ore imports make it one of the biggest independent import and export enterprises in China's ferroalloy industry. Jinneng International enjoys an excellent reputation around the world for its exports of low-phosphorus SiMn alloy, low aluminium ferrosilicon, ultra-high power electrodes and chemical grade silicon metal. It has established a sales network covering a dozen countries and regions including the U.S., Japan, Europe, South America, Southeast Asia and Taiwan. In the past two years, Jinneng International has been actively developing and expanding its coal business, for which it has established cooperative relationships with suppliers from America, Australia, Indonesia, Vietnam and major customers such as Datang Corporation, Huaneng Group, Huadian Corporation and

Zhejiang Provincial Energy Group Co., Ltd. In 2014, its coal trade amounted to 4 million tons. In the future, Jinneng International will continue to follow its ongoing commitment to “sincere cooperation, for mutual benefit” to bring more first-rate services and products and so ensure harmonious development and common progress.

Established in May 2003, Fengyu Ferroalloy Co., Ltd., the ferroalloy producer of Jinneng, now operates 10 submerged arc furnaces, with total capacity of 220000KVA and annual SiMn alloy capacity of 220 thousand tons, therein 80 thousand tons of medium-carbon ferromanganese. It is the most important Mn alloy producer in Northern China. Fengyu Ferroalloy Co., Ltd. consistently follows the principle of “quality first, integrity-based” and has won high praise from domestic and foreign customers.

TIME SCHEDULE

Participants will need to fly to Datong Airport and arrive on Saturday, June 13, for the visit on Sunday.

1. Recommended hotel:

Datong Yungang Jianguo Hotel
No. 21 East Yin Bin Road, Datong
Phone: +86 352 5066666
<http://www.yunganghotel.com/English/>

2. Schedule:

08:00	Pick-up at the hotel
09:00	Arrive Fengyu Ferro-Alloy plant
09:00-09:30	Factory Introduction and Safety Instructions
09:30-11:00	Visit the plant
11:00-12:00	Lunch
12:00	Depart for Datong Yungang Grottoes
13:00-15:00	Visit the grottoes
15:30	Back to the hotel

3. Flight from Datong to Shanghai:

Only one flight per day: China Eastern MU 5248 departing at 19:30 and arriving Shanghai at 22:10.

Transportation will be arranged from Datong Yungang Jianguo Hotel to the airport. Departure time: 17:45

4. Transportation from Datong to Taiyuan

A coach will drive the delegates who want to participate to the Jiaocheng Yiwang plant's visit in Taiyuan. It will depart from the hotel at 16:30

Travel time: 4 hours
